

# ■ CRISTINA

RUBINETTERIE

**Dear Architects,**

As a leader in the field of design faucets, CRISTINA Rubinetterie announces the arrival of **three series in BIM format : Tabula, Tilde and Tricolore Verde** , now available on our website and soon on Archiproducts.

This initiative represents a new chapter in interior design, offering advanced tools to realize unprecedented architectural visions.

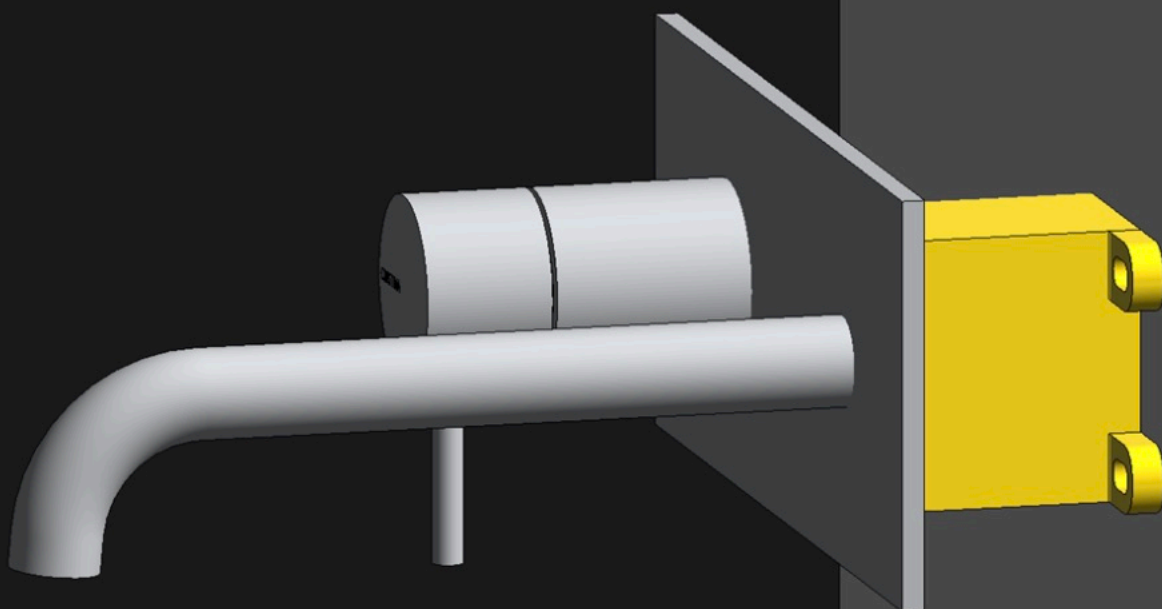

## Maximum Efficiency, Minimal Dimensions

We understand the importance of efficiency in design. For this reason, we have made our BIM files **light and easily manageable**, ensuring a smooth integration into your creative process without sacrificing quality or compromising execution speed.

## Unprecedented Precision

Thanks to the nativity in Revit, our models offer **highly detailed** parameterization. This means models with integrated connectors to easily connect the pipes of the plumbing system and mixers complete with built-in part, perfectly adaptable to the wall you are designing.

Get ready for a **high level of detail and customization**.

## More than Simple Models

Aware of the challenges in adopting new tools, CRISTINA Rubinetterie will accompany the BIM files with **detailed instructions** for optimal use of the software, facilitating the adoption of these resources in your daily workflow. The instructions will soon be available on our website.

## Where to Find the Models

Our series - **Tilde, Tricolore Verde and Tabula** - are now available for download on our website (in the specifications of each product) and on Archiproducts.

# CRITV258

Tricolore Verde - CRISTINA Design Lab

Large external single-control wall-mounted washbasin set, metal plate, with mechanical mixing, 1 1/4" Up&Down\* waste, spout length 225 mm, for completion with recessed part CRICS200 (control on the right) CRICS201 (control on the left)

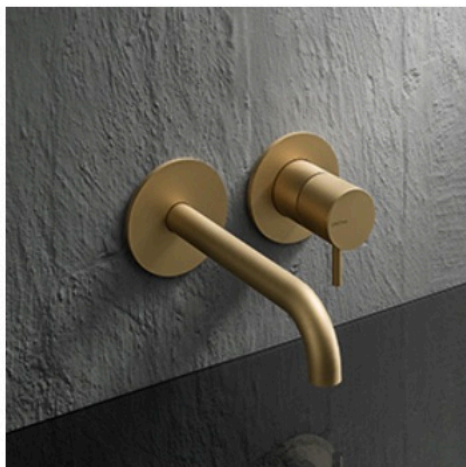

Finishings	▼
Command	Monocontrol
Installation	Wall
Typology	external basin trim set
Environment	Bathroom
