RUBINETTERIE

MDW 2025

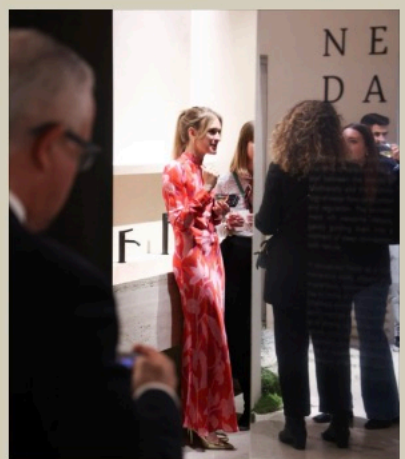

Thank you from the heart

Your presence at Milan Design Week 2025 made our showroom in Via Pontaccio 8-10 even more vibrant, sensitive, and open to beauty.

NEDA, the installation by **Elisa Ossino Studio**, brought to life a space suspended in time, where light, material, and silence blend into a narrative of well-being and harmony.

An experience that reflects the essence of CRISTINA: **design as an act of care, elegance as a form of accessible beauty, and technology in service of the soul of living spaces.**

It was a pleasure to share this vision with you—born from the desire to create environments that move, welcome, and inspire.

If you didn't get a chance to visit us—or wish to relive the emotion—we invite you to explore **the page dedicated to our showroom**: you'll find new images and inspiration from the installation.
